cool ducks nice ducks good boyes hihi. So this is not a polished, deeply involved game. The dialogue in the tutorial is rough. The resolution isn't good. (Though the Alt-Enter trick to make it full screen helps considerably). The graphics are serviceable.

It's a fun little survival roguelike, however. You pick three characters to start and pick three goals from among a list of easy and difficult tasks that comprise your winning condition. You then give your characters tasks each day to build up your base, gather resources, sleep, explore, etc. Win or lose, you get some points that you can use to unlock new characters to choose from in your next play through.

There is quite a lot of variety in characters, skill upgrades, and equipment. Combat is straightforward and brutally fair. There's a real risk of dying all of the time, which keeps you engaged.

Would I have wanted to pay \$25 for this? No. Was it worth my five bucks? Definitely.. On my third run and still no achievement :(What a wonderfully odd game. Try it in a sale. I didn't like it, but you just might if you have a high level of tolerance for philosophical musing, ropey English translations, and gameplay mechanics that are poorly explained.. Gucci Gang, ooh, yeah, Lil Pump, yeah, Gucci Gang, ooh

Gucci gang, Gucci gang, Gucci gang, Gucci gang
Gucci gang, Gucci gang, Gucci gang (Gucci gang!)

Spend ten racks on a new chain

Gucci gang, Gucci gang, Gucci gang. People making the reviews are absolutely stupid to the point it's actually kinda sad.

This isn't really a DLC, it's an early unlock.

You can get them by beating the tower, or just paying 2\$.

And for those upset that this is what Pre-Order gave... the Pre-Order didn't cost more. So.. yeah.. This is a great game that can introduce new users to VR, letting them mix potions and cast spells. It's more of an experience than a game, so don't expect a complex story or quests, but it's still a fun, free way to play around with VR physics and see what VR can do. Go Tarheels!

@House Undergraduate Library. DO not buy if you use WIN 10 Pro 64 bit a lot of people are getting a error message

(Exception TMYException in module ZombieBowl.exe at 00084BCE

TGGraphicsDevice.reset Failed.) and the game fails to start. Used to be a great game. Does not look like any of the developer or

publishers plan to fix this. Tried to visit their web sites but the sys failed to find them and got this error --(This page can't be

displayed -- •Make sure the web address <http://mumbojumbo.com> is correct. Unless a fix is posted DO NOT BUY! I read

Raven's comment and I wonder if the problem is in the video card. I am using a NVIDIA GeForce GTX 970.. I first played the

vanilla game several years ago, with the Western Allies, Russian, German and French campaigns. It was quite possibly the

greatest RTS game I have ever played, using a great system involving infantry, vehicles and crews, artillery, officers, airborne

troops, all sorts of good stuff.

With the Gold version, the "Rush for the Bomb" mode is added, detailing a fictional front of WWII with the rush to build the atomic bomb.

Started as a great game, now became better.

This is the best Pre-Production Plan Tool , If you are looking down the line plan for games and movies, this is the boss! it lives as it says, very efficient way to work, brain storm, execute , a time saver ! Very Handy for teams or if you are using for indie. TO GET NOSFERATEEN U NEED TO PLAY A LOT OF CO-OP AND ONLINE SAME FOR HIS MAP . limited. but better than rpg maker vx / ace

I make resource and many not even compaitble;(256 colros , outdated ;/. The game can't be play on Multiplayer at all always crash to desktop. also in the server list... nobody in any room! always 0V20 in every single room! make me doubt ... is multiplayer really work?!. The games controls are overtly sensitive with no way of chanign them, half the time the game glitches out and throws umbrellas at the pigeon and the other half the buttons to even play the game don't work. The assets are apparently ripped from a Unity pack, the gameplay is atrocious, all in all, don't waste your time.
